WORK EXPERIENCE

Backend Engineer Intern

COINFORBARTER

2021 Dec - 2022 April

CoinForBarter is a technology company that builds economic infrastructure for the internet. Businesses of every size, use CoinForBarter services to accept payment in cryptocurrency.

- Integration of user-facing elements developed by a front-end developers with server side logic.
- Worked with a team of three people to Refactor existing codebase and reduce Bugs by 95%.
- General development of applications, services and libraries using NodeJs.
- Implemented necessary tests using Jasmine for asserting different logic in endpoints, API's and libraries.
- Developed a two way communication channel, where I asked clear questions on my task and where I needed help, helped the team with my other skills in finance. I also made useful suggestions in major projects I was involved in.
- Worked with tools like MongoDB, PostgreSQL, Typescript etc.
